Index to
JOURNAL OF APPLIED MECHANICS
Volume 29, 1962

The Journal of Applied Mechanics includes papers contributed to the Transactions of the ASME by the Applied Mechanics Division of the ASME. The Journal of Applied Mechanics for 1962 was issued in March, June, September, and December.

Issue	Page Numbers
March	1–224
June	225–448
September	449–608
December	609–768

A

Abramson, H. N.
Application of the generalized phase-plane δ method to multi-degree-of-freedom vibrating systems ... 580

Acosta, A. J.
Effect on a longitudinal gravitational field on the supercavitating flow over a wedge (AC) ... 219

Adkins, A. W.
Digital computer program for the general axially symmetric thin-shell problem ... 655

Aerodynamics
Aeroelastic oscillator with two stable limit cycles ... 444
Hodograph design method for compressible flow problems ... 533
On the aeroelastic instability of bluff cylinders (D) ... 215
Some measurements of a wake boundary-layer interaction ... 177

Aggarwal, H. R.
Effect of rotatory inertia and of shear deformation on the frequency and normal mode equations of uniform beams with simple end conditions (D) ... 596

Airfoils
Hodograph design method for compressible flow problems ... 533

Airplanes
AGARD dictionary (BR) ... 222
High speed problems of aircraft and experimental methods, vol. 8 (BR) ... 607

Almroth, B. O.
Buckling of a cylindrical shell subjected to nonuniform external pressure ... 675

Aluminum
Some creep data for an aluminum alloy ... 435

Anemometers
Some corrections to the linearized response of a constant-temperature hot-wire anemometer operated in a low-speed flow ... 554, (correction) 758

Anliker, Max
Elastically clamped rectangular plate with arbitrary lateral and thermal loading ... 578

Appleby, E. J.
Problem in visco-plasticity ... 381

Applied Mechanics
Elastic moduli of heterogeneous materials ... 143, (D) 765
Fourth U.S. National Congress of Applied Mechanics, 1962; abstracts of papers ... 225
Ludwig Prandtl; collected works (BR) ... 223
Stability of two planar loop elastica ... 136

Archer, R. R.
On the influence of uniform stress states on the natural frequencies of spherical shells ... 502

Arches. *See* Structures

Ariaratnam, S. T.
Response of a loaded nonlinear string to random excitation ... 483

Atkinson, C. P.
Note on a new stability method for the linear modes of nonlinear two-degree-of-freedom systems ... 258

Automatic Control. *See also* Nonlinear Systems
Regelungstechnik, kurze Einführung am Beispiel der Drehzahlregelung von Wasserturbinen (BR) ... 447
Statistical analysis and optimization of systems (BR) ... 608

Aviation
AGARD dictionary (BR) ... 222

B

Bahar, L. Y.
Integration of some expressions arising in beam theory (D) ... 606

Baker, B. R.
Crack propagation under shear displacements ... 436
Dynamic stresses created by a moving crack ... 449
Influence coefficients for thin smooth shells of revolution subjected to asymmetric loads ... 335

Baron, M. L.
Diffraction of a shear wave by a cylindrical cavity in an elastic medium ... 205
Displacements and velocities produced by the diffraction of a pressure wave by a cylindrical cavity in an elastic medium ... 385

Baron, M. L. (author)
Numerical methods in engineering (BR) ... 448

Bars
Free vibration of a simply supported bar with a linearly variable height of cross section ... 497

Barton, M. V.
Shock response of a nonlinear system ... 465

Basuli, Sukumar
Note on the large deflection of certain cylindrical shell panel ... 753

Beams. *See also* Bars, Vibration
Beam natural frequencies with concentrated end weights and uniform axial loads ... 209
Effect of rotatory inertia and of shear deformation on the frequency and normal mode equations of uniform beams with simple end conditions (D) ... 596
Experimental and theoretical investigation of the plastic deformation of cantilever beams subjected to impulsive loading ... 719
Flexural wave propagation and vibration of laminated rods and beams ... 287
Integration of some expressions arising in beam theory (D) ... 606
Large deflections of a cantilever under two concentrated loads ... 200
Modified Fourier series for clamped beams and plates ... 204
Nonhomogeneous beam in plane stress ... 582
Note on two-dimensional stresses in long beams with spanwise variation of load and temperature ... 747
Random vibration of beams ... 267
Shear deformation in beams on elastic foundations ... 313
Wave propagation in an elastic beam or plate on an elastic foundation ... 459

Bearings
Gas-lubricated cylindrical journal bearings of the finite length (D) ... 603

Becker, E. C. H.
Experiments on the end effect in dual material columns ... 586

Bellows. *See* Expansion Joints

Benedict, E. T.
Transient capillary rise in reduced and zero-gravity fields (D) ... 445

Best, G. C.
Physical interpretation of fictitious nodes encountered in the node method of vibration analysis ... 15

Birefringent Coatings. *See* Photoelasticity

Bisplinghoff, R. L.
Frame analysis (BR) ... 446

Blenkarn, K. A.
Stresses due to a band of normal stress at the entrance of a circular hole ... 647

Bodner, S. R.
Experimental and theoretical investigation of the plastic deformation of cantilever beams subjected to impulsive loading ... 719

Bogdanoff, J. L.
Transient response of a dynamic system under random excitation (D) ... 594

Boley, B. A.
Transient coupled thermoelastic boundary value problems in the half-space ... 637

Book Reviews
AGARD dictionary ... 222
Analogue and digital computers ... 220
Analysis of nonlinear control systems ... 447
Axial flow fans ... 222
Axial und radial Kompressoren ... 220
Curricula in solid mechanics ... 608
Fatigue testing and analysis of results ... 607
Frame analysis ... 446
Fundamentals of heat transfer ... 448
Heat transfer ... 222
High speed problems of aircraft and experimental methods, vol. 8 ... 607
Hydrometry. Theory and practice of hydraulic measurements ... 220
Introduction of mechanics of continua ... 447
Introduction to the kinematic geometry of gear teeth ... 221
Kreiselpumpen fuer Fluessigkeiten und Gase ... 448
Ludwig Prandtl; collected works ... 223
Mechanics of inertial position and heading indication ... 767
Moment distribution ... 607
Numerical methods in engineering ... 448
Optimum design of mechanical elements ... 223
Oscillatory motions ... 767
Plasmas and controlled fusion ... 221
Progress in combustion science and technology, vol. 1 ... 223
Regelungstechnik, kurze Einführung am Beispiel der Drehzahlregelung von Wasserturbinen ... 447
Shock and vibration handbook, vols. I, II, and III ... 448
Shock tubes ... 447
Statistical analysis and optimization of systems ... 608
Theory of elastic stability ... 220
Theory of hydrodynamic lubrication ... 221
Thermal regions of combustion ... 767
Thermodynamics ... 221
Vvedenie v mekhaniku sploshnoi sredy (Introduction into the mechanics of continua) ... 767

Boundary Layer
Some measurements of a wake boundary-layer interaction ... 177
Two-phase boundary layer and its drag-reduction characteristics ... 408

Bragg, S. L.
Progress in combustion science and technology, vol. 1 (BR) ... 223

Brayton-Cycle. *See* Vibration

Brock, J. E.
Method for analysing axisymmetric plates with complicating conditions ... 509

Brooks, N. P. H.
On the aeroelastic instability of bluff cylinders (AC) ... 216

Brown, C. B.
Energy dissipation in contact friction; constant normal and cyclic tangential loading ... 17, 763

Brown, J. M.
Bending deflection of a circular shaft terminating in a semi-infinite body ... 86, 766

Bryson, A. E.
Steepest-ascent method for solving optimum programming problems ... 247

(AC) denotes Author's Closure; (BR) Book Review; (D) Discussion of a paper.

BUCKLING. *See also* METAL CREEP
Buckling of a cylindrical shell subjected to nonuniform external pressure 675
Buckling of axially compressed long cylindrical shell with elastic core 329
Buckling of cylindrical shells under longitudinally varying loads 81
Large-deflection analysis of buckling of a cylinder under bending 708
On the buckling of truncated conical shells in torsion 321
On the Euler buckling of built-in rectangular columns 441
Strongest columns and isoperimetric inequalities for eigenvalues 159

BURMESTER POINTS. *See* KINEMATICS

C

CABLES
Stability of two planar loop elastica 136

CANDEE, ALLAN H. (author)
Introduction to the kinematic geometry of gear teeth (BR) 221

CAPILLARITY
Transient capillary rise in reduced and zero-gravity fields (D) 445

CARABATEAS, E. N.
Characteristics of the flow of an ionized perfect gas through a magnetic field 568

CARLSON, R. L.
Dynamic creep instability of initially straight, centrally loaded columns (D) 764
Torsional creep buckling of thin-walled open tubes with a cross section having an axis of symmetry (D) 758

CAUGHEY, T. K.
Mechanics of inertial position and heading indication (BR) 767
On a restricted class of coupled Hill's equations and some applications (D) .. 603
Transient response of a dynamic system under random excitation (AC) 595

CAVITATION
Torque and cavitation characteristics of butterfly valves (D) 604

CESS, R. D.
Approximate analysis of laminar magnetohydrodynamic flow in the entrance region of a flat duct 171
Magnetohydrodynamic flow and heat transfer about a rotating disk 181

CHALEAT, R. (author)
Oscillatory motions (BR) 767

CHAO, C. C.
Elastically clamped rectangular plate with arbitrary lateral and thermal loading .. 578

CHENG, Y. F.
On the meaning of isoclinic parameters in the plastic state in cellulose nitrate 1

CHOBOTOV, V.
Dynamic stability of a pendulous missile suspension system 276

CHU, WEN-HWA
Application of the generalized phase-plane δ method to multi-degree-of-freedom vibrating systems 580

CICALA, P.
Homogeneous stress states in helicoidal shells 584

CITRON, S. J.
Slow viscous flow between rotating concentric infinite cylinders with axial roughness 188

CLARK, M., JR. (author)
Plasmas and controlled fusion (BR) 221

CLINE, G. B., JR.
Influence coefficients for thin smooth shells of revolution subjected to symmetric loads 335

COHEN, M. J.
Hodograph design method for compressible flow problems 533

COLUMNS
Dynamic creep instability of initially straight, centrally loaded columns ..... 73, (D) 764
Experiments on the end effect in dual material columns 586
On the Euler buckling of built-in rectangular columns 441
Strongest columns and isoperimetric inequalities for eigenvalues 159

COMBUSTION
Progress in combustion science and technology, vol. 1 (BR) 223
Thermal regions of combustion (BR) 767

COMPRESSORS
Axial und radial Kompressoren (BR) 220
On the flow in the vaneless diffuser of a centrifugal compressor 626

(AC) denotes Author's Closure; (BR) Book Review; (D) Discussion of a paper.

COMPUTERS
Analogue and digital computers (BR) 220
Digital computer program for the general axially symmetric thin-shell problem ... 655

CONCUS, PAUL
Effects of a magnetic field on natural convention in a toroidal channel 559

CONTACT. *See* FRICTION

CONVECTION. *See* HEAT TRANSFER

CONWAY, H. D.
Application of the point-matching method to shallow-spherical-shell theory 745
Axially loaded circular cylinder 318
Experiments on the end effect in dual material columns 586
Triangular plates analyzed by point matching 755

CRACKS. *See* STRESSES AND STRAINS, THERMAL STRESSES

CRANCH, E. T.
Torsional vibrations of shells of revolution (D) 595

CRANDALL, S. H.
Random vibration of a nonlinear system with a set-up spring 477
Random vibration of beams 267

CREDE, C. E. (author)
Shock and vibration handbook, vols. 1, II, and III (BR) 448

CREEP OF MATERIALS. *See also* METAL CREEP
Some creep problems solved with beta functions 441

CREMERS, C. J.
Hot-wire measurements of turbulence correlations in a triangular duct 609

CRYSTALLOGRAPHY
Stress field produced by localized plastic slip at a free surface 523

CUSHIONING. *See* PACKAGING

CYLINDERS. *See also* FLOW OF FLUIDS, ROLLING, SHELLS, TUBES, WAVE MECHANICS
Axially loaded circular cylinder 318

D

DALL, R.
Note on two-dimensional stresses in long beams with spanwise variation of load and temperature 747

DAVIDS, NORMAN
On classical plate theory and wave propagation (D) 219
Transient analysis of shear impact 33

DAVIS, E. A.
General solution for the elastoplastic thermal stresses in a strain-hardening plate with arbitrary material properties (D) . 762

DEFORMATION. *See also* ELASTICITY
Experimental and theoretical investigation of the plastic deformation of cantilever beams subjected to impulsive loading 719
Finite deformations of a rigid perfectly plastic arch 549
Nonsymmetric deformation of dome-shaped hells of revolution 353
Shear deformation in beams on elastic foundations 313

DENHAM, W. F.
Steepest-ascent method for solving optimum programming problems 247

DEN HARTOG, J. P.
Shock and vibration handbook, vols. 1, II, and III (BR) 448

DESIGN DATA AND METHODS
On the stress concentration in multiple notches 575

DIFFRACTION. *See* WAVE MECHANICS

DIFFUSERS
On the flow in the vaneless diffuser of a centrifugal compressor 626

DINGWELL, I. W.
Digital computer program for the general axially symmetric thin-shell problem ... 655

DISKS
Magnetohydrodynamic flow and heat transfer about a rotating disk 181
Simplest extensional vibration of a circular disk 437

DONNELL, L. H.
About Saint-Venant's principle 752

DONNELL'S EQUATIONS. *See* MATHEMATICS

DOVE, R. C.
Similitude in package cushioning 263

DRUCKER, D. C.
Curricula in solid mechanics (BR) 608
Moment distribution (BR) 607
Numerical methods in engineering (BR) .. 448

D'SYLVA, E.
Bending of perforated plates 749

DUCTS. *See also* HEAT TRANSFER
Approximate analysis of laminar magnetohydrodynamic flow in the entrance region of a flat duct 171
Thermal results for forced heat convection through elliptical ducts 165

DUNDURS, J.
Elastic plane with a circular insert, loaded by a tangentially directed force 362

DUNWOODY, N. T.
Thermal results for forced heat convection through elliptical ducts 165

DURELLI, A. J.
Application of moire methods to the determination of transient stress and strain distributions 23
Viscoelastic effects in birefringent coatings (D) 599

DYNAMICS. *See also* PLASTICITY, SHOCK, SPACE VEHICLES, STRESSES AND STRAINS
Dynamic stability of a pendulous missile suspension system 276
Dynamics of nonholonomic systems (D) .. 606
Impulsive motions 715
Normal modes of nonlinear n-degree-of-freedom systems 7
On the application of variational methods to initial value problems in dynamics ... 242
Similitude in package cushioning 263

E

EARTHQUAKES
Transient response of a dynamic system under random excitation (D) 594

ECKERT, B. (author)
Axial und radial Kompressoren (BR) 220

ECKERT, E. R. G.
Hot-wire measurements of turbulence correlations in a triangular duct 609
Two-phase boundary layer and its drag-reduction characteristics 408

EDELBAUM, T. N.
Minimum transfer time for a power-limited rocket (D) 217

EDDY, T. L.
Some measurements of a wake boundary-layer interaction 177

EICHHORN, R.
Some measurements of a wake boundary-layer interaction. 177

ELASTICAS. *See* APPLIED MECHANICS

ELASTICITY. *See also* BEAMS, STRESSES AND STRAINS, THERMAL STRESSES
About Saint-Venant's principle 752
Contact stress analysis of normally loaded rough spheres 515
Displacements and velocities produced by the diffraction of a pressure wave by a cylindrical cavity in an elastic medium . 385
Elastic moduli of heterogeneous materials 143
Elastic moduli of heterogeneous materials (D) 765
Elastic plane with a circular insert, loaded by a tangentially directed force 362
On a class of oscillations in the finite-deformation theory of elasticity 283
On the method of Milne-Thomson in plane elasticity 750
On thermally stressed elastic-plastic shells 108

ELLINGTON, J. P.
Some creep problems solved with beta functions 441

END EFFECT. *See* COLUMNS

ENERGY. *See* VIBRATION

ENERGY DISSIPATION. *See* FRICTION

Analysis of U-shaped expansion joints ... 115

WEINER, R. W.
Bifurcation phenomenon of static friction (AC) ... 598

WEINER, S. D.
Stress wave reflection at capstan-type boundary ... 440

WEINGARTEN, V. I.
Buckling of cylindrical shells under longitudinally varying loads ... 81

WESTMANN, R. A.
Bending of plates on an elastic foundation 369

WHITE, F. M., JR.
Laminar flow in a uniformly porous tube. 201

WILHOIT, J. C.
Stresses due to a band of normal stress at the entrance of a circular hole ... 647

WOLFORD, J. C.
On the collinearity of three Burmester points ... 207

WOODHEAD, R. W. (author)
Frame analysis (BR) ... 446

WRIGHT, J. K. (author)
Shock tubes (BR) ... 447

Y

YAMANTÜRK, S.
On thermally stressed elastic-plastic shells ... 108

YANG, A. T.
Harmonic analysis of spherical four-bar mechanisms ... 683

YANG, KWANG-TSU
Asymptotic solutions for unsteady laminar free convection on a vertical plate ... 124

YAO, J. C.
Buckling of axially compressed long cylindrical shell with elastic core ... 329
Large-deflection analysis of buckling of a cylinder under bending ... 708

YILDIZ, ASIM
Random vibration of beams ... 267

Z

ZAJAC, E. E.
Stability of two planar loop elasticas ... 136

(AC) denotes Author's Closure; (BR) Book Review; (D) Discussion of a paper.
